ATM Machine – Simple Statements

1. **Start the ATM machine.**
2. Display a welcome message: **“Welcome to ATM”**.
3. Ask the user to **enter PIN**.
4. Check whether the entered PIN is correct.
5. If the PIN is incorrect, display **“Invalid PIN”**.
6. If the PIN is correct, display the ATM menu:
    - Check Balance
    - Withdraw Money
    - Deposit Money
    - Change PIN
    - Exit
7. Ask the user to **select an option**.
8. If the user selects **Check Balance**, display the current account balance.
9. If the user selects **Withdraw Money**, ask for the amount.
10. Check whether the withdrawal amount is less than or equal to the available balance.
11. If sufficient balance is available, subtract the amount from the balance and display **“Please collect your cash”**.
12. If the balance is insufficient, display **“Insufficient Balance”**.
13. If the user selects **Deposit Money**, ask for the deposit amount.
14. Add the deposited amount to the account balance.
15. Display the **updated balance**.
16. If the user selects **Change PIN**, ask for the old PIN and new PIN.
17. Update the PIN if the old PIN is correct.
18. If the user selects **Exit**, display **“Thank you for using ATM”**.
19. Stop the program.

Simple Flow

Start → Enter PIN → Verify PIN → Display Menu → Select Option → Perform Operation → Display Result → Exit
